🐙 **GitHub** : 

Data analytics enthusiast with a BCA background, turning data into meaningful insights using Python, SQL, and Excel—driven by logic, curiosity, and problem-solving.

EDUCATION

St. Xavier's College of Management & Technology, Patna

2021 – 2024

Bachelor's of Computer Application (BCA) - CGPA : 7.97

SKILLS

- **Frontend:** HTML, CSS
- **Backend:** Node.js
- **Programming Languages:** Python, JavaScript
- **Databases:** MySQL, PostgreSQL
- **Tools:** Git, GitHub, Microsoft Office, Excel, PowerPoint
- **Data & AI/ML:** Data Visualization (Power BI, Excel)

PORTFOLIO : Link :

- Built a fully responsive personal portfolio website using **React, Vite, and Tailwind CSS**.
- Implemented dark/light mode toggle with theme preference saved in local storage.
- Showcased 4 real-world projects with dedicated detail pages using **React Router**.
- Deployed live on GitHub Pages with automated build and **deploy pipeline using gh-pages**.
- Integrated **animated loading screen, smooth transitions, and an interactive Dino Game**.

PROJECTS

Strayniya WebSite :

- Designed a responsive and visually appealing interface using **HTML, CSS, and JavaScript** to highlight Strayniya's Mission. Ensured accessibility on all devices with a mobile-first approach and modern design principles.

HHFC WebSite :

- Developed and implemented a user-friendly and visually appealing Frontend for the website hhfc.in using **HTML, CSS, JavaScript, and designs with Figma and Canva**.

Bookstore-sales-analysis-SQL :

- Developed a **SQL project** to manage bookstore data and generate business insights.
- Used advanced queries (**JOIN, GROUP BY, HAVING**) for sales and customer analysis.

SQL Data Analysis Project | Hospital Dataset :

- Completed a hands-on 30-Day **SQL Micro Course**, analyzing real-world hospital data using advanced SQL queries.
- Applied aggregation functions, **GROUP BY, JOINS, date functions, and subqueries** to generate insights on patient trends, hospital performance, and medical expense reports.
